SD7193.0/S99811

REMARKS

The following remarks are provided regarding the request for correction of the title of the invention.

The original filing of application number 10/686,168 on October 15, 2003 identifies the title of the invention as "Quadrature Mixture LO Suppression via DWS DAC Noise Dither". Similarly, and consistent with the original filing, the applicant's Office Action response faxed to the USPTO on March 1, 2007 identifies the title of the invention as "Quadrature Mixture LO Suppression via DWS DAC Noise Dither". The Notice of Allowance (dated May 4, 2007), however, identifies the title of the invention as "QUADRATURE MIXTURE LO SUPPRESSION VIA DSW DAC NOISE DITHER."

A comparison of the title of the invention submitted by applicants with that identified in the Notice of Allowance shows that the Office incorrectly transcribed the "DWS" portion of the correct title, and instead, entered it as "DSW."

As a result, we respectfully request that the "DSW" term be replaced with the correct term "DWS" in the title of the invention. Consistent with applicant's previous responses to the Office, the title of the invention should be updated to "Quadrature Mixture LO Suppression via DWS DAC Noise Dither."

The Office is authorized to charge Deposit Account # 19-0131 for any necessary fees regarding this response.

Respectfully submitted,

Elmer A. Klavetter
Patent Agent for Applicant
